H JNOLULU, JAN. 4, 1895,

WE CONDOLE.

ANOTHER SCARE

Hatch Will Leave,

Once upon a time there was a shepherd who was full of fun and mischief. He watched a large berd of sheep outside the town, and he thought it was lots of fun to see the clumsy peasants come around in double-quick time whenever he cried "Wolf, Wolf."

Finally the clumsy peasants, who only loved their sheep, got tired and when H--cock. one day really met the ferocious royalist wolf and raised his usual cry, nobody turned out. And the wolf came and swallowed the shepherd and all his little republican sheep.

That fable was written a few years ago, and could almost be called "chestnut." Aesop in fact is dead.

But nevertheless it seems that the story is ever fresh and ever applicable in Hawaii-nei.

We described in a former issue the scare which nearly paralyzed the government on the eve of New Year. Last night the situation was just as bad, and although the "guard" didn't turn out the heroes virtually "slept" on their guns.

The Advertiser comes out solemnly and states that the proofs of an uprising are in its hands.

The number of natives in town last night.

The natives found near the Kerosene Oil Warehouse claim that they had been out fishing. No malos were found on them, and they are consequently held in durance vile "for investigation." We admit that the lack of malos is bad, and ought to condemn them as conspirators and traitors. But is it not possible that the four men may have learned haole habits and done their fishing without being hampered with the "barbarian" malo?

As a result of the "scare" half a dozen men are in jail for investigation. When the grand inquisitor gets through with them he will probably wonder why in Capt.
